

NEW PRINCIPAL

April 2011 - Randall Lamb proudly announces the promotion of AARON PARKINGTON to Principal, leading San Diego's Mechanical Department. A 12-year veteran of the firm, Aaron looks forward to a long and successful future with the company.

Aaron Parkington, PE, LEED AP

Since 1998, Aaron has taken on increased responsibilities and proven his management abilities. A true leader and mentor, it is his goal to solidify Randall Lamb's reputation for stellar mechanical engineering, as well as continue to provide innovative energy saving solutions for his clients.

Aaron will also work alongside our Commissioning Department specialists, focusing on the important tasks of commissioning ground-up projects and retro-commissioning existing buildings, a program that is gaining momentum. Another key initiative is Aaron's focus on mentoring and encouraging staff, giving them the tools and confidence to excel, and ultimately becoming the next generation of leaders.

Originally from the East Coast, Aaron started out in Randall Lamb's San Francisco office, thinking he'd be basking in that California sunshine. It didn't take long for him to realize that in order to hang out at the beach, he'd have to move to our San Diego location! When he's not engineering, he enjoys a variety of sports that include surfing, golf, basketball and baseball, as well as strumming on his guitar.

Congratulations, Aaron!
